

## What to expect from your MJJ Interior Design Consultation

A focused session of professional interior design advice, tailored to your home and how you live.

### **BEFORE YOUR CONSULTATION**

Please provide photos of the space/s to be discussed, rough measurements, inspiration images and a budget.

### **DURING YOUR CONSULTATION**

We'll use our time together to work through your design questions and provide professional advice relevant to your space. This may include layout, colour, furniture, lighting, window treatments, finishes, styling and product recommendations, depending on your priorities.

### **AFTER YOUR CONSULTATION**

Further product selections, sourcing, measurements, layouts, alternative options or additional design advice fall outside the consultation and can be commissioned separately.

### **SOURCING THROUGH MJJ**

Where we identify furniture, lighting, fabrics, wallcoverings, finishes or other pieces through our trusted supplier network, we're delighted to source and procure these for you. Our sourcing network has been carefully researched, tried and developed through years of professional practice and forms an important part of the MJJ design service. If you would like us to source any of the pieces discussed during your consultation, simply let us know and we can provide an MJJ quotation.

### **SAMPLES**

Where appropriate, MJJ may bring selected samples to your consultation to help you make informed design decisions.

### **OUR TRADE NETWORK**

The consultation gives you the benefit of our professional design knowledge and recommendations; it does not provide unrestricted access to MJJ's trade supplier network or commercial arrangements.

### **MEASUREMENTS & ORDERING**

Unless a measured design service has specifically been commissioned, any measurements or layouts discussed during a consultation are for design guidance only. Please ensure final dimensions, quantities and site conditions are professionally checked before ordering products or commencing work.

### **NEED MORE HELP?**

If you'd like us to continue developing your scheme after the consultation, we'd be delighted to help through additional consultation time, sourcing and procurement or one of our wider interior design services.
